# WELCOME

Founded in 1990, ATC has been a leader in the AV and events industry, continually investing in the latest technology to stay ahead. Our commitment to innovation extends to our people, ensuring our team is always equipped with the latest knowledge and expertise. This dedication allows us to deliver top-quality hire equipment, seamless technical solutions, and trusted support to our clients.

Our experienced Hire Team is always ready to assist. If this guide doesn't list your specific AV requirements, we'll do our best to source what you need. Together with our Projects Team, we bring over 250 years of combined industry experience to every event we support.

Operating from Tamworth in the Midlands, Feltham in London, and now Ghent in Belgium with the launch of ATC Europe, we're perfectly positioned to serve clients across the UK and throughout Europe. Our excellent transport links enable fast, efficient delivery and on-site support wherever your event takes place.

Every piece of equipment is meticulously checked and prepared before leaving our three warehouse facilities, which together provide over 45,000 sqft of space. We also offer a 24-hour on-call service, ensuring help is always available when you need it.

Visit [atcomms.com](https://atcomms.com) for our latest equipment additions, case studies, and more information about how ATC can support your next project.
